Sharon M. Keating

August 7, 2010

Dear Sir or Madam:

I am interested in an IT position with an organization, preferably Desktop End User Support, Server Administration, or IT Security.

I currently work for the State Of Florida, Department Of Corrections (DOC), Union Correctional Institution (UCI) as a Distributed Computer Systems Analyst (DCSA) and have been employed there since November 30, 2008.

Before that, I spent over twenty years as a civil service Information Technology Specialist. When I left the government, I was a GS-2210-11 Step 9 and had a Secret clearance, granted in 2005. I got my BS degree in programming at Jones College in 1986.

Our organization was disestablished by SPAWAR via the Base Realignment And Closure (BRAC), so I left the Federal service for the State service via a forced early retirement as of 28FEB2007. Salary is open to negotiations and I prefer a full time position, though I will consider others.

I have completed certification as an EC-Council Certified Ethical Hacker (CEH) and an EC-Council Certified Hacking Forensics Investigator (CHFI). I am working my way to an MCSE, having obtained Microsoft Certified Professional (MCP) with XP Professional.

Thank you for considering my resume.

Sincerely,

Sharon M. Keating, MCP, CEH, CHFI
Distributed Computer Systems Analyst (DCSA)
